

ANCIENT CIVILIZATIONS

TELESCHOOL LESSON FOR APRIL 15, 2020

Remember to join the Microsoft TEAMS meeting at 10:00 Wednesday morning with your TAG teacher if you are able to. We'd love to see you! We will also record the meeting if you miss it.

EQ: How do we learn about ancient civilizations? What is the value of studying ancient civilizations?

Hello archeologists! Welcome to our third lesson of TAG Teleschool! Today we're going to dive into four ancient civilizations to help us answer our essential questions.

- ~~What do you think~~ **warmup?** Is **time** more like bubble gum, an onion, or a spaghetti noodle? Talk to a homework helper and explain your answer.
- **Explore the photos** found in this [photo essay](#):

<https://www.thoughtco.com/archaeology-equipment-tools-of-the-trade-4122666>

What do you NOTICE and WONDER about the tools you see? Tell your homework helper what you notice and wonder. How do you think archeologists learn about ancient civilizations?

- Next, watch the National Geographic Kids videos linked here if you didn't watch them last week. The videos are numbered: Watch 1,2,5,6,7,8,9,10, and 11. They are very short. 😊 (1-2 min long each.)

Think about which ONE ancient civilization interests you the most. Your choices will be: Ancient Greece, Ancient China, Ancient Egypt, or Ancient Rome. Explore the links on the TAG website if you are not sure. Then...

- Use the links on the [TAG website](http://crabapplecrossingtag.weebly.com/ancient-civilizations.html) to learn about and explore the ONE CIVILIZATION you are most interested in.

<http://crabapplecrossingtag.weebly.com/ancient-civilizations.html>

- After learning about the ancient civilization of your choice, complete the “I’m the Archeologist!” page. You will find it below...keep scrolling. Take a picture of it and share it with your TAG teacher in Seesaw after you complete it. Record yourself reading it if you are able to in Seesaw. If you cannot upload a picture to Seesaw, just send it to your TAG teacher in Microsoft Office.

This is the ancient civilization that you will be learning the MOST about during Teleschool. Each week you will learn about the ancient civilization and at the end of the unit, you will create an exhibit about your ancient civilization. **Start thinking** about how you could create a museum exhibit that will teach others about your ancient civilization. Will it be made out of boxes? Will it be digital? Will it be drawn? You get to choose how you create your exhibit. Think about the supplies you have available at home. We can’t wait to see your **creativity shine** in this!

I'm the Archeologist!

Name: _____

Date: _____

My team is excavating the site of:

King Tut's Tomb
(Egypt)

The Terra Cotta Army
(China)

Mycenae and the Lion Gate
(Greece)

Pompeii
(Rome)

The year of our excavation is: _____.

There is a famous archeologist on my team! His/her name is: _____.

We found something really interesting! I'm going to draw a detailed picture of it so that you can document its discovery. Here it is!

If you come visit us, I am definitely going to show you: _____

A strength I have that helps me be an archeologist is:

Something that I could work on improving as an archeologist is:

I think that I can best create a museum exhibit by:
