

Architecture K-2

Teleschool Lesson Week 5, May 1st

ZOOM meeting with your TAG teacher at **10:00 a.m.** K/1st Monday; 2nd Friday

Hello CCES Architects!

We enjoyed seeing all of the creative shape sculptures you created last week! There were lots of amazing creations and titles for the sculptures! This week you will learn about floor plans and create one of your bedroom. You may add items to your bedroom to help make your “perfect” bedroom.

Parents, you can find the lesson posted in the activities folder in your child's Seesaw account.

To find it:

1. Go to Classlink <https://launchpad.classlink.com/fcs> and login with your Child's Student ID and 8 digit birthday as the password.
2. Click  and choose your child's TAG class journal.
3. Click “Activities” and find the lesson in  called “Bedroom Map”.
4. Read the directions and watch the recording we linked for you.
5. You may either use the **template** in Seesaw, **OR** you can draw your bedroom floor plan on a **piece of paper**. Please add symbols and colors to show where things are located in your bedroom. Make a key that matches your drawing. (The architect in the video doesn't create a key for his floorplan, but we think it will be helpful.)
6. Take a picture of your bedroom floor plan (drawing) and upload it to Seesaw or email a picture to your teacher.

Architects, what did you notice and wonder during this activity?

1. I noticed ... _____
2. I wondered..._____
