

Architecture Teleschool Week 2, April 3rd, 2020

Hello Amazing Architects!

We loved the houses that you created out of index cards and paper clips last week! We saw lots of smiling faces and successful designs. This week we are going to listen to a story online and then do some more building. You can find the lesson posted in your child's Seesaw journal. To find it:

1. Go to Classlink <https://launchpad.classlink.com/fcs> and login with your child's ID and 8 digit birthday as the password.

2. Click on Seesaw.
3. Find the lesson called, "Design Challenge: Architectural Masterpiece, Teleschool Lesson for April 3."
4. Listen to the recording to start the lesson and have fun! We look forward to seeing more pictures this week!

EQ: How can I create a masterpiece using unusual building materials at home?

After you complete the lesson, please discuss the following with your architect.

1. How are you like Iggy? How are you not alike?
2. Discuss the steps you went through to build the masterpiece. (Look at available materials, brainstorm designs, draw designs, choose a design, build and improve, reflect on what went well and what they would do differently next time.) Discuss how architects follow these same steps. Optional: If your child made an Architect Notebook he/she can draw out and illustrate the steps in it.
3. What did you notice and wonder during this activity?

I noticed ...

I wondered ...
